

Arlington Dental Building

Welcome to our office

At Arlington Dental, we have three important commitments. We have put them in writing because, as a practice we promise to always fulfill these commitments to you as a valued patient. We strive to create a treatment plan that will accommodate all of your needs.

Commitment to Treatment

Our team will deliver the best dental care to you, your family, and friends and will always stay current with the most successful treatment options available. Our office setting will aim to increase patient comfort and the efficiency of the appointment, while achieving a successful outcome. We will listen to and focus on any recommendations around your personal desires, concerns, and goals.

We ask that you care for your dental health to the best of your ability. Good daily home care is essential for dental health. Starting but not finishing treatment leads to more advanced disease which unnecessarily adds to your cost and limits the success of treatment. You can have great dental health by following through with your dental plan and home care.

Commitment to Appointment

We will reserve time especially for you in our schedule. We will give you our outmost attention and care and will rarely keep you waiting. An appointment scheduled in our office is a bond of trust that our team will be here to serve you and that you will be on time for your appointment.

Commitment to Financial Considerations

We will accept most major insurances and will work with your insurance company to help you afford the treatment you need. Forms of payment accepted are cash, check, and all major credit cards.
